

On February 21 the Blue Ridge Corridor Alliance held their 2019 Annual Meeting. The [Blue Ridge Corridor Profile](#) was released at the meeting and is now live on the BRCA website. The report is the culmination of a year and a half of work researching, defining and providing context on what constitutes the Blue Ridge Corridor. The profile has maps, demographic & economic numbers, history on the area, some great quotes from some familiar faces, and institution by institution facts & figures. It is a one-stop-shop on everything Blue Ridge Corridor.
