

The 2019 Cleantech Connect Career Fair was held on January 30 at the McKimmon Center at NC State University where 17 employers connected with industry students, job seekers, and skilled experts. Industry leaders provided career and internship opportunities as well as a chance to learn more about cleantech and energy sector careers. RTCC reported that almost 80% of employers responding to a survey said they were planning to hire candidates from the Cleantech Connect Career Fair and 100% are likely to participate again in a future career fair
